Patient Safety Plan (PSP)

April 7, 2023
Version: one

SDMI's Quality Improvement and Risk Management Committees created this plan. Implementation of this plan is intended to maximize the quality of care provided, patient safety outcomes, encourage recognition, reporting and acknowledgement of risks to our patients, visitors and staff.

MISSION: Provide an exceptional patient experience and diagnostic imaging services through compassion and cutting-edge technology.

VISION: Be a trusted outpatient medical imaging provider for you, your family and our community.

VALUES: Safety, Integrity, Courtesy and Leadership

The scope of this Patient Safety Plan is organizational-wide.

The purpose of this plan is to anticipate, prevent and address all safety concerns.

It is the responsibility of all SDMI staff members to participate in our patient safety plan through observation, prevention and action as appropriate.

The following committees ensure that all aspects of SDMI's PSP are enforced as well as review and revise the plan at least annually or as needed.

Quality Improvement Committee
Risk Management Committee (this includes the Patient Safety Officer)
Safety Committee
Radiation Safety Committee

SDMI's PSP consists of the following policies and procedures:

Patient Care and Safety (PCS)
Quality Management & Improvement
Radiation Safety
Safety Program
Infection Control and Prevention Program
