Describe Incident (Be as specific as possible.)

When morning shift arrived, they went to check on Marley Jackson to start their morning routine of grooming and breakfast. Caregiver Corina Avila found Marley with a plastic bag on his head without a pulse. She called manager, administrator, 911 and the hospice. Coroner's office sealed the room to investigate.

Video of Room 10 was watched and recorded which was provided to HCQC upon their investigation of the incident. It seems from the footage that Marley has planned his own suicide.

- At some point prior to 6/28/22, he hid a trash bag under his covers as well as a bib which is used to help him with his meals.
- Day before 6/28/22 he got a shave and was cheerful with staff.
- He waited for night shift staff to check on him around 3 a.m. of 6/28/22.
- After she left the room, he had covered his head with the bag and tied the bib's "handles" around his neck to prevent air from getting into the bag.
- Footage shows that he passed away by himself in this state sometime between 4 and 6am.
