EDUCATION EMERGENCY MANAGEMENT TELEPHONE NUMBER RESOURCES AND PROCESS FOR EACH CATEGORY

" WHO CAN YOU CALL WHEN THERE IS A DISASTER NATURAL OR MAN MADE TO HELP YOU KNOW WHAT TO DO OR ASSIST YOU DURING THIS EVENT"

WHAT ARE POSSIBLE DISASTER THAT WE MAY HAVE?
(***The following are what we call HAZARD VULNERABILITY ANALYSIS AND SUBSEQUENT PLAN***)

1. FLOODS
2. FIRE
3. DROUGHT
4. STORM SEVERE HEAT OR SEVERE COLD
5. EPIDEMIC
6. EARTHQUAKE
7. AIRCRAFT ACCIDENTS
8. TERRORISM

WHAT DO WE MEAN WHEN WE TELL YOU " YOU ARE CATEGORY 1 or 2 or 3"

This means that we care for you when there is a disaster. The agency will ensure that you are safe and that there is help when help is needed. Hence during your admission to our agency The RN will assess your level of need that may occur when there is a disaster, hence this are the meaning of each category and what we do with each category.

1. CATEGORY I (HIGH) – You are category 1 if you live mostly alone during daytime or if in the absence of daily skilled nurse visit can lead to immediate threat to life (i.e., ventilator – dependent without capable caregiver) or you are highly unstable, or if you are in need of critical supplies or medications

   Process for CATEGORY 1 – *We assigned leaders for each priority, Our staff will call you to ask you if you are hurt, affected by the disaster and needing assistance to be evacuated, will assign staff to go to you to check as well if you are not answering our call. For any need you will have during disaster you will be one of our priority to assist or help. The leader assigned to this Priority is Ms. Lorilyn Faraon RN and our Administrator.*

2. CATEGORY II (MED) – You are a category 2 if you live with someone at your home and the visits of our nurse is at least 1-2x week or what we call intermittent visits, You are in this category because you require moderate level of care that should be provided that day of the visit of our nurse and you have caregivers not prepared to provide needed care i.e wound treatments)

   Process for CATEGORY II – *We assigned Ms. Agnes Infantado RN for you as the leader for our patients under this category. We will call you or your representative to ask if you are affected with the disaster and will educate your caregiver or family on what to do and remind you of the number for any needed help such as if needing to know where the evacuation center is, or other resources during disaster. We will assign a visit to you the following day of the disaster.*

NEVADA HOME HEALTH PROVIDERS, INC.

1210 S. Valley View Blvd. Ste 100 Las Vegas, NV 89102 TEL. NO (702)382-8331

3. CATEGORY III (LOW) – You are a category 3 because it is either you live in an assisted living or a group home or in your private home with a caregiver present 24 hours a day and or family member that is competent on your needs to be taken care of. You can safely forego care or a scheduled visit without a high probability of harm or deleterious effect.

   Process for CATEGORY III – *We assigned Ms. Joy Agcaoili (Staffing Coordinator) for you as the leader for our patients under this category. We will call you or your representative to ask if you are affected with the disaster and will educate your caregiver or family on what to do and remind you of the number for any needed help such as if needing to know where the evacuation center are, or other resources during disaster. We will assign your visit from the nurse within 1-2 days after the disaster.*
